

### Wireless IR Repeater Kit

**MVE-AN1W1-01Q**

**Features:**

- IR is compatible with all universal full band carrier frequency infrared remotes
- High IR sensitivity range (over 23' (7m))
- Long-range transmission (up to 656' (200m))
- 915MHz
- FSK modulation for strong signal sensitivity, Anti-RF interference, noise suppression
- IR carrier tuning frequency: 20~60 KHz
- Rx listen mode at 3.8mA (only)
- High receiving sensitivity (-90dBm)
- Frequency hopping technology minimizes RF interference
- Digital encryption ensures safety and reliability
- Power: 500mA@5VDC
