2x 12" USB Power cords

1x Manual

# Room Occupancy Monitor

## Quick Guide Manual

For complete instructions, please see the full Manual on the SECO-LARM website.

### Overview:

#### Sensor

#### Indicators

\*Phototransistor jumper's default is OFF, other jumpers' default is ON

### Basic DIY Installation Using Micro USB Power:

The Room Monitor Kit (RM-R100-KB1Q) is pre-learned and ready to go right out of the box. Just mount and connect to power via the included micro USB cable and any USB adapter. Follow the steps below for a basic installation.

1. Find a location to mount the Sensor/Indicator. Keep in mind that the included micro USB cord is 12" long.
2. Use a paper clip and program as needed. See *Setting a Reminder Time* on pg. 2.

3. Apply double-sided mounting tape to the back of the Sensor/Indicator and mount.
4. Connect the micro USB plug to the Sensor/Indicator and connect to power.

## Setting a Reminder Time:

The Room Monitor Sensors and Indicators can be programmed to flash if the room has been occupied for an extended period of time.

1. Connect to power and press the pairing button within 5 seconds of powering on.
2. After pressing the pairing button, count number of times the LEDs flash.
3. Press the pairing button until desired reminder time is set. See table below for reminder time settings.

# of Flashes	1	2	3	4	5	6	7
Reminder time	Disabled	3min	5min	10min	15min	20min	30min

\*Service pairing button cannot be used to set a reminder time.

**IMPORTANT:** For instructions on how to pair additional Sensors and Indicators, terminal block wiring instructions, and other additional information, please see the full Manual on the SECO-LARM website.
